

## L2 Global Preparedness and Security Division Capabilities Brief [www.L2Defense.com](http://www.L2Defense.com)

L2 (L2Defense) has a team of Certified Emergency Managers (CEM) with real-world deployment experience to major incidents across the Globe. L2 can provide EOC, IMT, and US&R IST support. L2 maintains a cadre of world-renowned Emergency Management instructor-trainers certified to teach state and federal Emergency Management, ICS, and IMT courses. Our instructors did not just read the book, in many cases, they wrote the books/courses and have documented real-world experiences. L2 has a cadre of FAA Part 107 sUAS licensed pilots and flight instructors with Basic & Advanced Flight experience and advanced sensor capabilities (optical, thermal, HAZMAT, RAD, etc.

L2 provides training, certification, and fielding of teams at the Basic Life Support, Advanced Life Support and Tactical Medicine levels. This training includes Tactical Combat Casualty Care (TCCC) and Tactical Emergency Casualty Care (TECC). All courses are taught by instructors with extensive military and/or public safety experience. L2 GP&SD has a licensed Medical Director with austere environment experience. L2 supports the USAF Ready Eagle 2, global expeditionary medical program with SMEs.

L2 provides law enforcement training and full-scale exercises to local, state, and federal agencies and Urban Area Security Initiatives (UASI). Training is provided by experienced SWAT/ERT team leaders and operators from experienced law enforcement agencies across the United States. Classes include Tactical Carbine, Tactical Rappel Master, Night Vision/Low Light, and Optical Sight Transition.

L2 provides nationally recognized training in the field of Hazardous Devices including Bomb Technician training. Taught by experienced military and civilian Hazardous Devices Technicians (Bomb Techs). Classes include Explosive Breaching, Render Safe, Advanced Electronics, EOD-SWAT Tactical Integration, and Joint Hazardous Response Team (JHERT/JHAT) amongst others.

L2 has a cadre of FEMA-trained and certified Master Exercise Practitioners (MEP) who oversee and manage discussion and operations-based exercises. L2 specializes in large-scale civilian and military exercises for the Homeland. L2 has supported the annual three-weeklong DoD Northern Command's Guardian Response CBRN Full-Scale Exercise for the past 10 years providing 150 SMEs deployed to coordinate 4,000 military, civilian, local, state, and federal responders, amongst others.

L2 provides world-class Preventive Radiological and Nuclear Detection (PRND), Hazardous Materials/CBRNE/WMD, Confined Space Rescue, Awareness, Operations, and Technician Level Training. Specialized classes include Meters and Monitoring, Sight Characterization, CBRNE threat and response planning, and advanced training for Securing-the-Cities Radiological Preparedness.

L2 has a team of trained and certified Master Continuity Professionals (MCP) and Certified Business Continuity Practitioner (CBCP) SMEs that provide support for local, state, federal, and military Continuity of Operations (COOP) and Continuity of Government (COG) in the classified and unclassified space.

L2 has a team of telecommunications professionals each with years of experience in the design, installation, and operation of US Government and military systems, state and local government public safety systems, and volunteer first responder systems that require reliable and resilient voice and data networks to conduct their safety of life missions effectively. L2 also has certified instructors necessary to train Communications Unit Leaders (COML), Communications Technicians (COMT), Radio Operators, and other support personnel to better utilize their own communications systems and equipment.
